

Mobile App Release 2.25

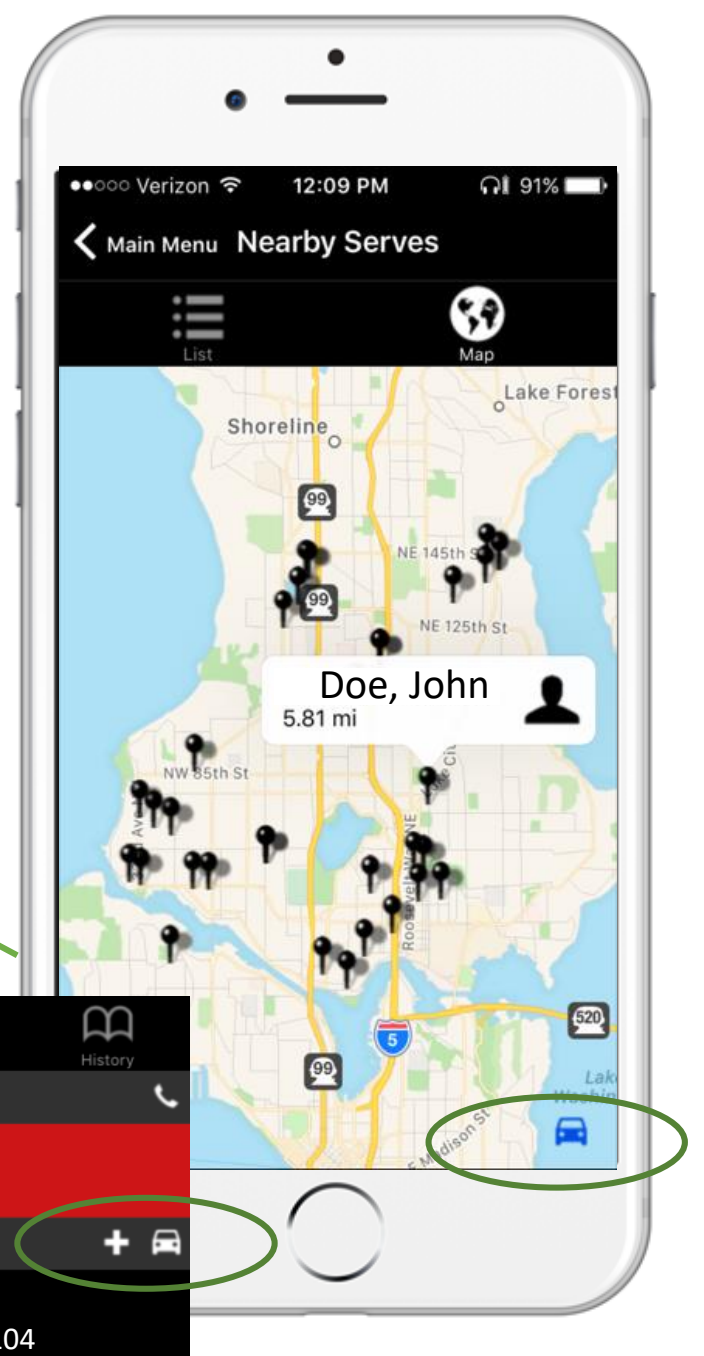

App Store

Previously, iPhone users could install only via our website. You can now find our ABC Mobile app for download in Apples App Store.

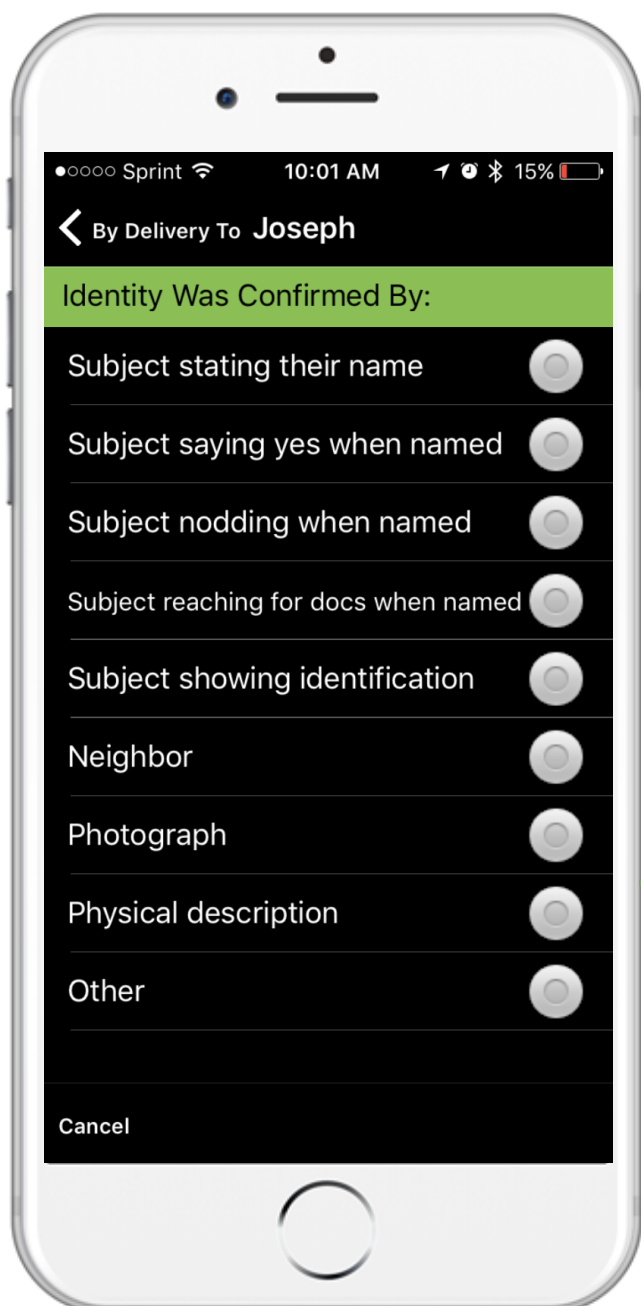

Routing Enhancements

We have enhanced the experience for routing to nearby serves. This includes further address details to packing list, a clickable car icon in the bottom right of the map, and the ability to click the car icon in the order details page. After you select the car icon, your phone will open its native GPS application and begin routing.

Identity Confirmation

We have updated our list of options to confirm subjects identity providing a clear narrative of the service event.

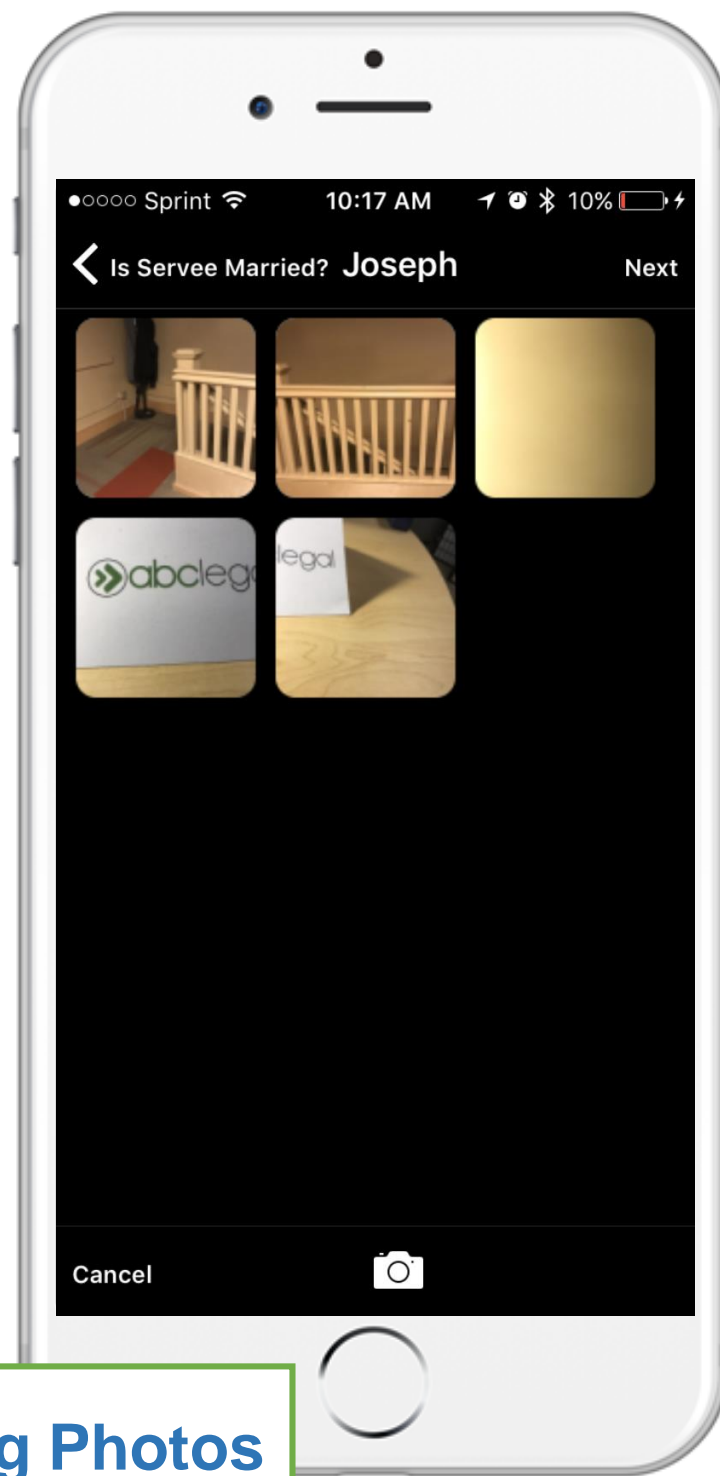

Camera Changes for iPhone Users

Taking Photos

Once you've taken your photos, select the thumbnail in the bottom left to review.

Submitting Photos

After reviewing your photos, you will have a "Next" option in the upper right screen. Press this button to continue. If you would like to delete a photo, select it. Once selected, there will be a trash icon.
